

**Executive Director: Sara Becker**

Sara's equestrian journey began at the age of six, inspired by her mother, Ms. Patty, and a childhood immersed in horses and family farms. She started competing in pleasure and hunter/jumper events at eight, developing a deep passion for horses and riding. In 2008, Sara became a PATH-Certified Instructor, enabling her to work with riders of all abilities from local communities. Two years later, she and her mother co-founded Hooves to Heal, NFP, combining their extensive equine experience to create a therapeutic riding program. Today, as Executive Director, Sara continues her family's legacy of community service, leading Hooves to Heal with dedication and compassion.
