

Barn Manager: Hana Meacham

Hana has been part of the HTH family since she was 11, when a family outing to celebrate her sister Bella's birthday turned into a lasting passion. Originally from Marengo and homeschooled, Hana began volunteering at HTH in 2011, alongside her sisters, and has now dedicated over 12 years to supporting the barn. As a versatile barn manager, she handles everything from mucking stalls to feeding, carefully adjusting each horse's diet based on their unique needs.

A dressage enthusiast since 2021, Hana actively competes and leases a 19-year-old Pinto named Skylar, practicing multiple times a week.. To further deepen her equine knowledge, she takes online courses in Equine Health and Management.

In addition to her barn duties, Hana is a healthcare worker and enjoys downtime with puzzles, board games, and her favorite—sudoku. She now lives in Harvard, close to her new niece, and never misses a chance for sushi!
